

Construction Notice – Electrical Upgrade Work Fraser Highway, 151 Street, Surrey

June 6, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of a duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Construction will result in some eastbound and westbound lane closures and will impact driveway access on Fraser Highway. Please see the map on page 2.

Where: Fraser Highway, between 150 Street and 152 Street in Surrey.

When: Anticipated to start June 14 with targeted completion by the end of June.

Working Hours: Monday to Friday, and possible weekends, from 7 a.m. to 5 p.m.

This work requires temporary traffic pattern changes. Traffic will be reduced to a single lane, in each direction. Access to/from Fraser Highway may be restricted.

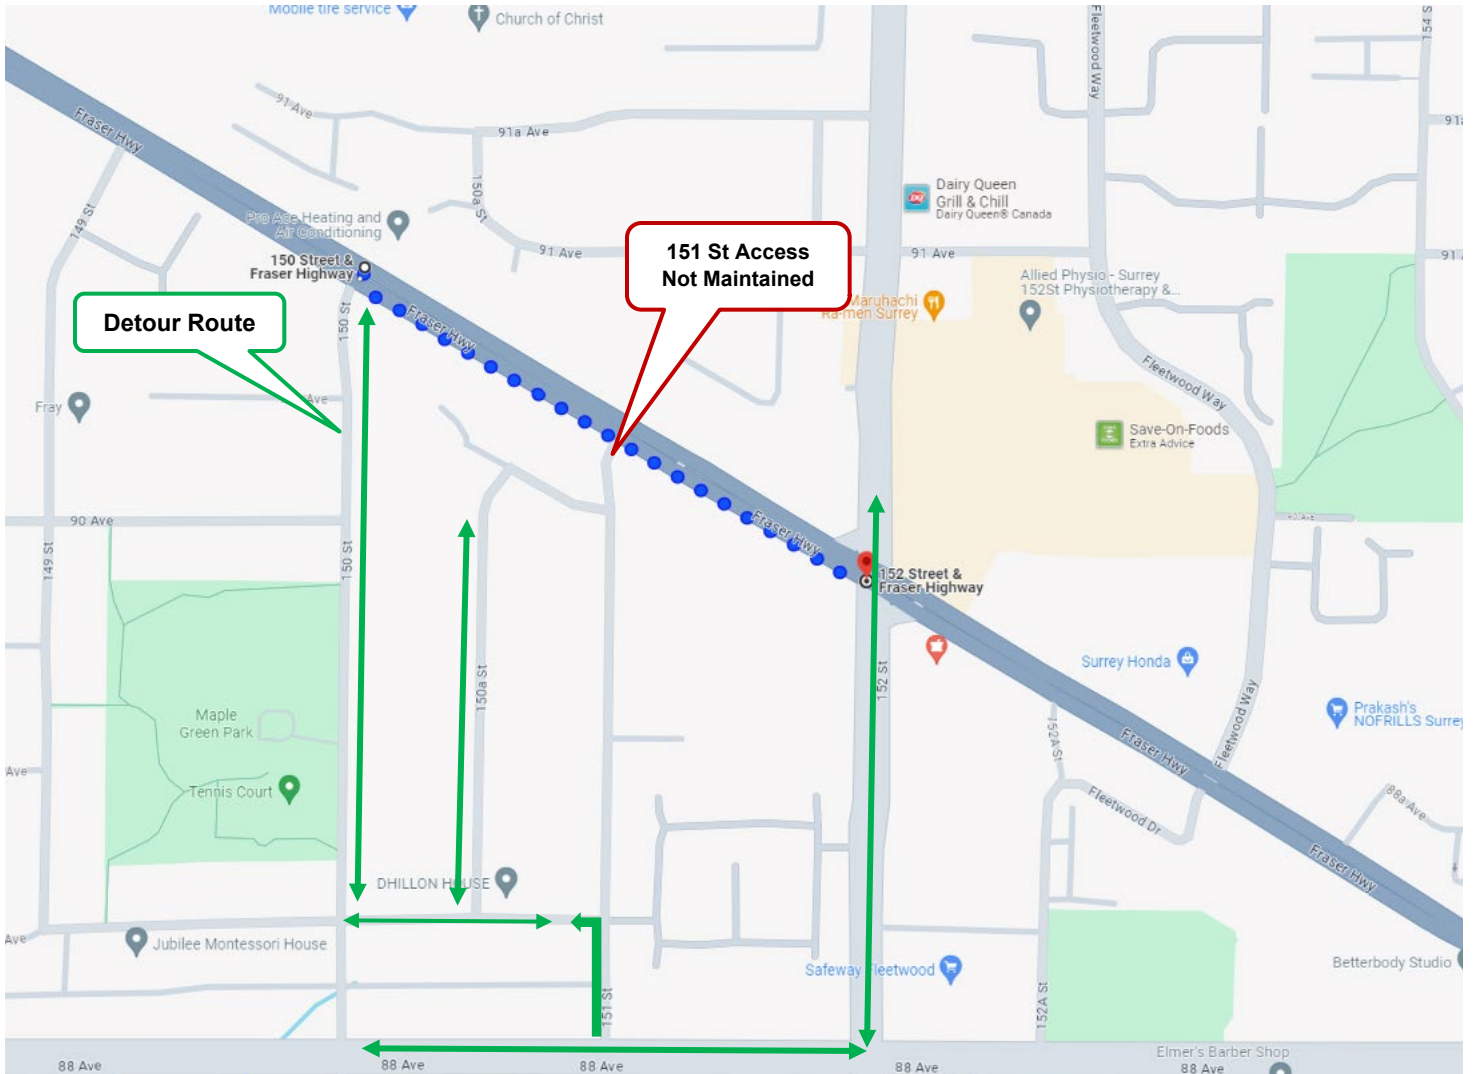

- Access to 150 Street (south) and 152 Street (north and south) from Fraser Highway will be maintained.
- Access to 151 Street south of Fraser Highway will not be available.
- Access to residences and businesses on the south side of the Fraser Highway will be available via 88a Ave. Please see the map on page 2 for details regarding detour options.

Safety is our top priority. Sidewalks, bicyclist lanes and bus stop locations on this route will be impacted and may not be available. Please follow the onsite signage provided by Translink and the direction of crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at www.bchydro.com/skytrain
