

Construction Notice – Electrical Upgrade Work Fraser Highway, from 160 Street to 164 Street, Surrey

May 13, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of a duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Construction will result in some eastbound and westbound lane closures and will impact driveway access on Fraser Highway. Please see the map on page 2.

Where: Fraser Highway, from 160 Street towards 164 Street in Surrey.

When: May 21 with targeted completion June 15.

Working Hours: Monday to Friday from 7 a.m. to 5 p.m.

This work requires temporary traffic pattern changes. Traffic will be reduced to a single-lane in each direction. Please note that access to/from Fraser Highway may be restricted. Crews will provide alternative access to businesses where driveways may be impacted. Existing access from 160 Street and 84 Ave will be maintained.

Safety is our top priority. Please adhere to traffic management control on site. We advise drivers to reduce their speed in the construction zone and follow the directions of traffic control personnel and posted signage.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at www.bchydro.com/skytrain

For inquiries directly related to the SkyTrain extension project, please contact surreylangleyskytrain@gov.bc.ca
